Linked to the Study, Loft N° 5 is the perfect family lock off. A lovely childrens room right next door to the Study. With two single beds, baby monitor, lots of bedtime stories and black out blinds we have built this one an ideal calm sanctuary for children. After a day running around the garden they can safely relax in their home from home.

Loft N° 6 is another additional interconnecting family room. Perfect for larger families or small groups willing to share. In the eaves of the roof with sky lights flooding with light this is a cosy hide away room
